HOWARD'S CELEBRATED PLOUGHS

Howard's Double Plough.

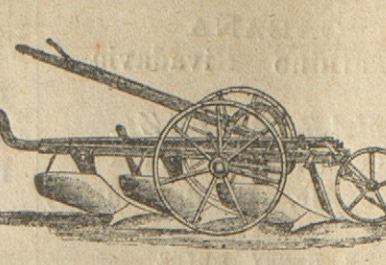

The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the end, the plough is lifted by the same lever clear of the ground.

The implement is so strongly constructed that in the hands of Rovers it cannot readily be injured.

PRICES IN ENGLAND.

With steel breast..... 9 0 0
With steel breast but without coulters 8 10 0
Weight 4½ cwt.

Howard's Triple Plough.

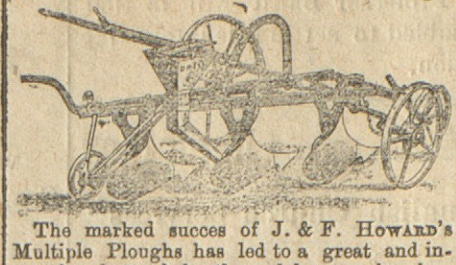

This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

PRICES IN ENGLAND.

With steel breast..... 12 15 0
With steel breast but without coulters 12 0 0
Weight 6½ cwt.

Howard's Meale Drill Plough

The marked success of J. & F. Howard's Meale Drill Plough has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

PRICES IN ENGLAND.

With steel breast..... 12 15 0
With steel breast but without coulters 12 0 0
Maize Drill 2½ lbs. extra.

The above Implements kept in Stock by the Principal Hardware Merchants.

J. & F. HOWARD, BEDFORD and LONDON

Descriptive and Illustrated Catalogues Post Free.
